

Consultation Services

The Eden II Programs Diagnostic and Outreach Center has clinicians with expertise in all aspects of autism programming and service delivery. These experts are available to provide consultations for a variety of clinical and programming needs:

- ◆ **Program Consultation** to evaluate and structure programs in a way that supports effective service delivery.*
- ◆ **Behavioral Consultation** to treat challenging behaviors in individuals with autism of all ages across a variety of settings (e.g., home, community, schools, day programs).*
- ◆ **Speech and Language Staff Training** provides 1:1 staff training to support the acquisition of communication skills.*
- ◆ **Specialized Behavioral Consultations** to assist with challenging skill acquisition issues (e.g., toileting and sexuality).
- ◆ **BCBA Supervised Experience.** Supervision programs that meet the current fieldwork requirements for individuals seeking certification as Board Certified Behavior Analysts.
- ◆ **Invited Presentations.** Full-day, half-day and 2-hour staff training presentations in topic areas that matter the most to schools and service delivery organizations.

* Denotes Consultation Service that can be funded through Self-Direction.
